PROFESSIONAL SUMMARY

Full-Stack Developer focused on bridging design, logic, and functionality to build seamless web experiences. Experienced in both front-end and back-end development, with a strong emphasis on collaboration and teamwork. Driven by curiosity, attention to detail, and a passion for turning complex ideas into practical, well-designed solutions.

EDUCATION

Computer Science - Bachelors of Science | May 2026

Georgia State University - Atlanta, GA | GPA: 3.63 | Dean's List

- Relevant Coursework: Database Systems, Software Engineering, Cybersecurity, Web Programming, Design Analysis Algorithms, Data Structures, Software Development

PROJECT EXPERIENCE

Weather by Hour | HTML, CSS, JavaScript, Open-Meteo API | September 2026

- Developed an interactive weather dashboard that combines city search, current weather conditions, and local time in a responsive web interface.
- Integrated Open-Meteo weather and geocoding APIs to retrieve location-specific data and dynamically update the interface based on user input.
- Engineered a responsive search experience with live city suggestions, input validation, first-result selection, and click-away behavior.

Lingo Quest (AI Language Learning Platform) | React, Python, MySQL | May 2026

- Built a full-stack gamified language-learning platform with a responsive frontend and backend system for managing user progress, sessions and learning data.
- Developed interactive learning modules featuring real-time vocabulary practice and adaptive translation challenges to improve user engagement.
- Designed scalable system architecture using UML modeling and SDLC principles to structure application flow and ensure maintainability.
- Collaborated in a 4-person Agile-style team using Git-based workflows for branching strategies, code reviews, and feature integration.

WORK EXPERIENCE

AI Training Specialist | May 2026 - Present

Handshake AI | Remote

- Complete AI training and evaluation projects by reviewing AI-generated responses and performing project-specific tasks according to established guidelines.
- Evaluate AI outputs for accuracy, relevance, consistency, and quality while maintaining strong attention to detail
- Adapt to different project requirements and workflows while consistently meeting quality standards and completing tasks independently.

Production Specialist | May 2022 - Present

Amarya Henna | Atlanta, GA

- Manage product preparation, order fulfillment while maintaining an organized and efficient production workflow.
- Coordinate outgoing shipments, track deliveries, and ensure customer orders are handled accurately and efficiently.

DLS Front Desk Student Assistant | June 2024 - May 2026

Georgia State University | Atlanta, GA

- Oversaw daily front office operations, including mail distribution, supply inventory, equipment maintenance, and workspace organization.
- Monitored office and printing supplies while keeping equipment and resources organized, accessible, and operational.

App Developer Intern | February 2025 to May 2025

Free World Empire - Remote

- Collaborated with a development team to implement new features for a social application and improve overall user experience.
- Tested and debugged application features to identify issues, improve responsiveness, and maintain reliable functionality.
- Refined UI components based on team feedback and usability requirements.

TECHNICAL SKILLS

Languages: JavaScript, Python, SQL, HTML, CSS, C, PHP

Frameworks & Databases: React, MySQL, Supabase, Firebase

Developer Tools: Git, GitHub, VS Code, Google Colab, Terminal
