PROFESSIONAL SUMMARY

Full-Stack Developer focused on bridging design, logic, and functionality to build seamless web experiences. Experienced in both front-end and back-end development, with a strong emphasis on collaboration and teamwork. Driven by curiosity, attention to detail, and a passion for turning complex ideas into practical, well-designed solutions.

EDUCATION

Computer Science - Bachelors of Science | May 2026

Georgia State University - Atlanta, GA

- GPA: 3.63 | Dean's List
- Relevant Coursework: Database Systems, Software Engineering, Cybersecurity, Web Programming, Design Analysis Algorithms, Data Structures, Software Development

WORK EXPERIENCE

AI Training Specialist | May 2026 - Present

Handshake AI | Remote

- Complete AI training and evaluation projects by reviewing AI-generated responses and performing project-specific tasks according to established guidelines.
- Evaluate AI outputs for accuracy, relevance, consistency, and quality while maintaining strong attention to detail
- Adapt to different project requirements and workflows while consistently meeting quality standards and completing tasks independently.

Production Specialist | May 2022 - Present

Amarya Henna | Atlanta, GA

- Prepare and package products for customer orders and distribution while ensuring an efficient and organized workspace.
- Manage outgoing shipments by delivering packages to the local post office, tracking deliveries, and overseeing orders are properly handled throughout the shipping process.

DLS Front Desk Student Assistant | June 2024 - May 2026

Georgia State University | Atlanta, GA

- Managed daily front office operations, including mail distribution, supply inventory, equipment maintenance, and workspace organization to maintain a professional environment.
- Monitored and replenished office and printing supplies while ensuring equipment and resources remained organized, available, and fully operational.

App Developer Intern | February 2025 to May 2025

Free World Empire - Remote

- Collaborated with a team to design and develop new features for a social app, contributing to a smoother and more engaging user experience.
- Tested and debugged application features to identify performance issues and improve overall responsiveness, reliability, and functionality.
- Presented completed work to the team, incorporated feedback, and refined UI components to improve usability and overall user experience.

PROJECT EXPERIENCE

Lingo Quest (AI Language Learning Platform) | React / Python / MySQL - May 2026

- Built a full-stack gamified language-learning platform with a responsive frontend and backend system for managing user progress, sessions and learning data.
- Developed interactive learning modules featuring real-time vocabulary practice and adaptive translation challenges to improve user engagement.
- Designed scalable system architecture using UML modeling and SDLC principles to structure application flow and ensure maintainability.
- Collaborated in a 4-person Agile-style team using Git-based workflows for branching strategies, code reviews, and feature integration.

Game of Chess | HTML / CSS / JavaScript - August 2025

- Developed an interactive chess web app with full move validation, check/checkmate detection, and turn-based state management.
- Built a responsive, accessible UI using CSS Grid and Flexbox, ensuring seamless gameplay across devices.

SKILLS

Technical Skills: Python, JavaScript, HTML, CSS, SQL, C, PHP, React, MySQL, Supabase, Firebase

Developer Tools: Git, GitHub, VS Code, Google Colab, Terminal
